Subject: Regarding Clarification on Use of Generative AI in the CS888 Assignment1

Dear Dr. Sruti,

I, Himanshu Pandey, am a student registered in the course "Introduction to the Profession and Communication Skills"(CS888). I received your email regarding submission of the assignment number 1. I have doubts regarding the statement mentioned in the assignment saying **"Inappropriate use of Generative AI tools in this assignment will be penalized**". I just wanted to get a clarification on what will be considered as an inappropriate use of AI and what is permitted while making the use of Generative AI. Can I use it for grammatical corrections, sentence generations or more specifically May I know the boundaries for using AI? Your response will make me clear about the use of Generative AI for the assignment.

Thanks for your time and consideration.

Regards,

Himanshu Pandey
